INDEPENDENT AUDITORS' REPORT

Board of Education
Lexington Public School District #1
Lexington, NE

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information – cash basis – of Lexington Public School District #1, Lexington, NE, (the “School District”), as of and for the year ended August 31, 2011, which collectively comprise the School District’s basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School District’s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, Lexington Public School District #1 prepares its financial statements on the cash basis, which is a comprehensive basis of accounting other than the accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position – cash basis – of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the School District as of August 31, 2011, and the respective change in financial position – cash basis thereof, for the year then ended in conformity with the basis of accounting described in Note 1.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 02, 2011, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The accompanying required supplementary information, such as management's discussion and analysis and budgetary comparison information on pages 3 through 7 and 28 through 30 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the School District's basic financial statements. The accompanying schedule of federal financial awards as listed on pages 52 through 54 is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. The supplemental Combined Schedule of Cash Receipts, Disbursements and Fund Balances on page 27, the Schedule of Disbursements for Operational Expenses - General Fund on pages 31 through 36, the Schedule of Cash Receipts, Disbursements, Transfers and Fund Balance - Activities Fund on pages 37 through 39, the Individual Fund Schedules of Cash Receipts, Disbursements and Fund Balance as listed on pages 40 through 46, the Schedule of Receipts and Disbursements - *American Recovery and Reinvestment Act of 2009* Funding on page 48 and the analysis of General, Special Building and Bond Fund tax accounts with County Treasurers on pages 49 through 51 are presented for purposes of additional analysis and are not a required part of the basic financial statements. These supplemental schedules are the responsibility of School District's management. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements, and in our opinion is fairly stated, in all material respects when considered in relation to the financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Dawson County School District 24-0001 (Lexington Public Schools)

This section of Lexington Public Schools' annual audit report presents our discussion and analysis of the school district's financial performance during the fiscal year that ended on August 31, 2011. Please read it in conjunction with the district's financial statements which follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to Lexington Public Schools' financial statements. The provisions of Statement No. 34 ("Statement 34") of the Governmental Accounting Standards Board (GASB), "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments," established standards for external financial reporting for all state and local government entities. These standards require three components for Lexington Public Schools' basic financial statements. They are: 1) government-wide financial statements, 2) fund financial statements, 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. These components are described below:

Government-wide Financial Statements

These statements are intended to provide a broad view of Lexington Public Schools' operations in a manner similar to the private sector, providing both a short-term and a long-term view of Lexington Public Schools' financial position. To meet this view, Lexington Public Schools would need to prepare its financial statements on the accrual basis of accounting. However, Lexington Public Schools did not prepare its government-wide statements on the accrual basis. Instead Lexington Public Schools prepared its government-wide statements on the cash basis of accounting. Under the cash basis, receipts are not recorded until received, inventories are not recorded as disbursements until they are consumed, and accounts payable and accrued expenses (primarily payroll withholdings) have not been recognized as liabilities. Accordingly, Lexington Public Schools' government-wide financial statements are not intended to present the financial position and results of operations in conformity with generally accepted accounting principles (GAAP) accepted in the United States of America. The government-wide financial statements include two statements, the Statement of Net Assets and the Statement of Activities.

The Statement of Net Assets presents all of Lexington Public Schools' assets and liabilities on the cash basis as described above with the difference between the two reported as "net assets." Net assets is one way of measuring the District's financial health or financial position. Over time, increases or decreases in the District's net assets are an indicator of whether its financial health is improving or deteriorating. To assess the overall health of the District you need to consider additional non-financial factors such as changes in the District's property tax base and changes in the state school aid funding formula from the State of Nebraska.

The Statement of Activities presents information showing how Lexington Public Schools' net assets changed during the reported year. Changes reported are on the cash basis as described above. The statement of activities demonstrates the degree to which the direct disbursements/expenditures of a given function or segment are offset by program receipts/revenues. Direct disbursements/expenditures are those that are clearly identifiable with a specific function or segment. Program receipts/revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Appropriations and other items not properly included among program receipts/revenues are reported, instead, as general receipts/revenues.

In the statement of net assets and the statement of activities, activities of the District are divided into two categories:

Governmental Activities- This category includes the District's basic instructional services, such as elementary and high school educational programs, and support services (guidance counselor, executive administration, board of education, business services, etc.). Property taxes, state grants, and federal grants finance most of these activities.

Business-Type Activities- The school charges a fee to students to help cover the costs of providing hot lunch services to all students. The School Lunch Fund is the only business-type activity of the School.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds – not the District as a whole. Funds are accounting mechanisms that the District uses to keep track of specific sources of funding and spending for particular purposes.

The District has three kinds of funds:

- **Governmental Funds** – Most of the District's basic services are included in the governmental funds, which focus on (1) how cash and other financial assets that can be readily converted to cash flow in and out and (2) the balances left at the year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.
- **Proprietary Funds** – Services for which the District charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both short-and long-term financial information. The School Lunch Fund is the only proprietary fund maintained by the District.
- **Fiduciary Funds** – The District is the trustee, or fiduciary, for various external and internal parties. The District is responsible for ensuring that the assets reported in

these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. These activities are excluded from the District's government-wide financial statements because the District cannot use these assets to finance its operations. The Activities Fund and Student Fee Fund are Fiduciary funds.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in all of the basic financial statements.

Required Supplementary Information

Following the basic financial statements and the accompanying notes thereto, is additional Required Supplementary Information that further explains and supports the information in such financial statements. The required supplementary information consists of the budgetary schedule and notes.

**NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED AUGUST 31, 2011**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The School District prepares its financial statements on the cash basis, which is consistent with the Commissioner of Education and Nebraska Department of Education requirements. Under the cash basis, revenues are recognized when collected rather than when earned, and expenses are recognized when paid rather than when incurred. Consequently, these financial statements are not intended to present financial information in accordance with accounting principles generally accepted in the United States of America.

The financial statements of the District have been prepared in accordance with the cash basis of accounting, an other comprehensive basis of accounting. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. In accordance with GASB Statement No. 20 – *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting* – the District has elected to apply all applicable Financial Accounting Standards Board pronouncements including those issued on or before November 30, 1989 except for those pronouncements which conflict with or contradict GASB pronouncements.

Reporting Entity – All significant activities and organizations on which the School exercises oversight responsibility have been included in the School District's financial statements. The basic financial statements of the School District include Lexington Public Schools and its component unit. The blended component unit reflects the financial information of the Lexington Public Schools Building Corporation. The board of the component unit is appointed by the District board. Its purpose is to seek, hold, purchase, lease, and otherwise encumber real or personal property. The services of the component unit are so intertwined with the School District that it is in substance the same as the School District and is reported as part of the School District. Thus, the financial information of the component unit is blended in the School District's financial statements.

The School District has the following related organizations not considered to have a significant operational or financial relationship:

Fundraising Organizations

- The school has Parent Teacher organizations at the individual schools that raise money for various projects at the school.

**NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED AUGUST 31, 2011**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Presentation – The School District has adopted the provisions of Statement No. 34 (“Statement 34”) of the Government Accounting Standards Board “Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments.” Statement 34 established standards for external financial reporting for all state and local government entities, which includes government-wide financial statements, fund financial statements and the classification of net assets into two components – restricted and unrestricted.

Government-wide and fund financial statements – The government-wide financial statements report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental receipts, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct disbursements of a given function or segment are offset by program receipts. Direct disbursements are those that are clearly identifiable with a specific function or segment. Program receipts include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general receipts.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements.

Proprietary funds are used to account for the School District’s business type activities. Proprietary funds distinguish operating receipts and disbursements from nonoperating items. Operating receipts and disbursements generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. All receipts and disbursements not meeting this definition are reported as nonoperating receipts and disbursements. The School Lunch Fund is considered a proprietary fund.

**NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED AUGUST 31, 2011**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fiduciary funds report assets held in a trustee or agency capacity for others and therefore cannot be used to support the School District's own programs. The Activities and Student Fee Funds are fiduciary funds.

Major Funds of the school are the General, Special Building, LPS Building Corporation and Depreciation Fund for the governmental funds and the Lunch Fund for the proprietary funds.

Fund Types – The accounts of the School District are organized on the basis of funds which are grouped into the following fund types:

Governmental Funds

General Fund – Accounts for the financing of all facets of services rendered by the School District, inclusive of operation and maintenance.

Depreciation Fund – Accumulates funds for eventual significant future capital outlays.

Employee Benefits Fund – Accounts for money utilized to pay for future employee benefits for School District retirees.

Special Building Fund – Accounts for the acquisition, erection, alteration, or improvement of buildings and sites.

Bond Fund – Accounts for tax receipts, investment interest, and the payment of bond principal, interest, and other related costs.

Lexington Public Schools Building Corporation Fund – Accounts for lease revenues from the General Fund that are specifically reserved for future building and improvement purchases.

Proprietary Fund

School Lunch Fund – Accounts for the proceeds of breakfast and lunch receipts, U.S. Department of Agriculture reimbursements and commodities receipts which are restricted to disbursements for specified purposes.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fiduciary Funds

Activities Fund – Accounts for the financial operations of quasi-independent student organizations, interschool athletics, and other self-supporting or partially self-supporting school activities not accounted for in another fund.

Student Fee Fund – Accounts for fees for extracurricular activities and related disbursements.

Equity – In the government-wide statements, equity is classified as unrestricted and restricted net assets. In the governmental fund statements, equity is classified as non-spendable, restricted, committed, assigned, and unassigned, see detail below.

Restricted Assets – When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first and then unrestricted resources as needed.

Capital Assets – In accordance with the cash basis of accounting, capital assets are not recorded as assets on the government-wide or fund statements and depreciation is not recognized. Purchases of capital assets are recorded as disbursements by function in the financial statements.

Long-Term Debt – In accordance with the cash basis of accounting, long-term debt is not reported as a liability in the government-wide or fund financial statements. Proceeds from long-term debt are reported as receipts and payments of principal are reported as disbursements in both the governmental-wide and fund financial statements.

Compensated Absences – The District has entered into negotiated agreements with certified and noncertified personnel. In those agreements they have agreed to benefits for vacation and sick leave benefits. In accordance with the cash basis of accounting, these benefits are recorded as expenses when paid.

Use of Estimates – The preparation of financial statements in conformity with the cash basis of accounting, an other comprehensive basis of accounting, used by the District requires management to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Balance – The School District is adopting Governmental Accounting Standards Board (GASB) No. 54 “Fund Balance reporting and Governmental Fund Type Definitions” as of and for the year ended August 31, 2011. In accordance with GASB No. 54, the School District classifies governmental fund balances as follows:

Non-spendable: Fund balance amounts are considered non-spendable if they cannot be spent either because they are not in spendable form or because of legal or contractual constraints.

Restricted: Fund balance amounts are considered restricted if they are constrained for specific purposes which are externally imposed by providers, such as creditors, or constrained due to constitutional provisions or enabling legislation.

Committed: Fund balance amounts are considered committed if they are constrained for specific purposes that are internally imposed by the government through formal action of the Board of Education and constraints do not lapse at year-end.

Assigned: Fund balance amounts are considered assigned if they are intended to be used for specific purposes that are neither considered restricted or committed. Fund balances may be assigned by management.

Unassigned: Fund balance amounts are considered unassigned if they are positive fund balances within the General Fund that are not classified as one of the above or negative fund balances in other governmental funds.

The School District’s policy is to spend restricted amounts first when both restricted and unrestricted fund balances are available unless there are legal restrictions that prohibit doing so. Additionally, the School District is to first spend committed, then assigned, and lastly unassigned amounts of fund balances when expenditures are made.

The District does not have a formal minimum fund balance policy.

2. CASH AND INVESTMENTS

Lexington Public School District #1's deposits consist of cash and certificates of deposit only. 7. EARLY RETIREMENT INCENTIVE PLAN

The District has adopted an early retirement incentive plan for certified employees who elect early retirement. No employee contributions are required; the District pays the entire cost of the plan. Qualified certificated employees who elect to claim the early retirement incentive shall be paid an amount based upon the cost of a single health insurance premium from the School District's insurance carrier as of the participant's last year of employment. All future payments will be based on that amount and will not increase. The participant will be paid the amount of such single health insurance premium for a maximum of 60 months or until the month of the participant's 65th birthday, whichever occurs first. **REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To The Board of Education
Lexington Public School District #1
Lexington, NE

We have audited the financial statements – cash basis of Lexington Public School District #1 as of and for the year ended August 31, 2011, and have issued our report thereon dated November 02, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Lexington Public School District #1's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Lexington Public School District #1's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Lexington Public School District #1's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined below. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs, 11-1, that we consider to be significant deficiencies in internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to attract attention by those charged with governance.

Lexington Public School District #1's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. We did not audit Lexington Public School District #1's response and, accordingly, we express no opinion on it.

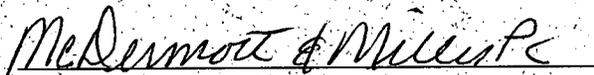

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lexington Public School District #1's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

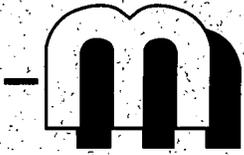

We noted certain matters that we reported to management of Lexington Public School District #1 in a separate letter dated November 02, 2011.

This report is intended for the information of the Board of Education, administration, State of Nebraska Department of Education, State of Nebraska Auditor of Public Accounts and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A
DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON
INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB
CIRCULAR A-133**

INDEPENDENT AUDITORS' REPORT

To the Board of Education
Lexington Public School District #1
Lexington, NE

Compliance

We have audited the compliance of Lexington Public School District #1 with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major Federal programs for the year ended August 31, 2011. The School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major Federal programs is the responsibility of the School District's management. Our responsibility is to express an opinion on the School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the School District's compliance with those requirements.

In our opinion, the School District complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended August 31, 2011. The results of our auditing procedures disclosed no instances of noncompliance with those requirements that are required to be reported in accordance with OMB Circular A-133.

Internal Control Over Compliance

Management of the School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the School District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined below.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 11-1 to be significant deficiencies.

Lexington Public School District #1's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit Lexington Public School District #1's response and, accordingly, we express no opinion on the response.

II. FINANCIAL STATEMENT FINDINGS

Finding 11-1 Lack of Segregation of Duties in One or More Areas

Criteria: Proper internal controls require that an entity has adequate segregation of duties within a significant account process.

Condition: The entity does not have adequate personnel to assign responsibilities in such a way that different employees handle different positions of a transaction.

Cause: The entity has a limited number of personnel.

Effect: An individual controlling a transaction from beginning to conclusion does not have oversight from other individuals to insure that the transaction was properly executed and recorded.

Recommendation: We would recommend that the Board of Education take an active part in internal controls and closely monitor all accounting functions, while seeking ways to continue to strengthen compensating controls.

Auditee Response: The entity's Board continually evaluates the distribution of duties to employees and closely monitors all accounting functions.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS
